Gregory Street,
Ballarat

Supplementary List of New Creations in Gladioli 1930

Australia

IN introducing this list to the Public we desire to state that all the varieties mentioned (with the exception of one) have been raised in Ballarat, and are of exceptional merit, all having tall strong spikes, good colors, and high-class exhibition form.

DAVID.—A very strong growing variety carrying from eight to ten well-formed flowers. Warm cherry red, cream tongue, edged with deep mauve. Dark feathering in throat. Well faced spike of exhibition type. 5/- each.

IRIS PHILLIPS.—A very beautiful lavender, slightly flaked on outer edges with a darker shade. Faintly pencilled purple in the throat. A fine exhibition spike showing ten to fourteen flowers at once. 7/6 each.

NOEL L. REEVE.—The colour of this variety is somewhat changeable. Coming in Summer a beautiful cerise pink slightly flaked, the throat being cream pencilled violet. In the Autumn the cream throat predominates, and the outer part of the flower is mellowed down to a pale tone. Received F.C.C. Ballarat, and will give from twelve to fifteen flowers beautifully set on a tall spike. 10/- each.

JEAN KAY.—A dainty variety which, when well grown, is fit for the show bench. Spikes are well-faced with nice large flowers, Salmon in color, with a Lemon-yellow throat. Eight to ten flowers open at once. 2/6 each.

Mrs. JIM KERR.—A variety producing tall spikes of vivid pink, throat being feathered with violet maroon on a cream ground. The well-faced spike is capable of producing ten to twelve flowers of exhibition type. 3/6 each.

RITA PHILLIPS.—Colour Apricot-salmon. Deep Orange-flame feathering on lower petals, faintly edged with white. A very dainty colour combination. Spike is well-faced showing up to ten open blooms. Exhibition type. 7/6 each.

SUNNYSIDE.—A champion of champions. Showing fifteen large well-formed flowers on a tall spike. The outer part of the flower is a beautiful cerise pink slightly flaked a darker shade. The centre being pure white, which predominates as the flower expands. This variety is perfect in both colour and spike. F. C. C. Ballarat as an exhibition variety. 15/- each.

SILVERSHEEN.—A magnificent spike of large flowers of a glowing Salmon Pink. A white tongue on lower petals, feathered wine-red in the throat. The whole flower is over-laid with a silvery sheen. Ten open flowers on a strong tall spike, makes Silversheen a magnificent specimen. F.C.C. Ballarat. Exhibition type. 7/6 each.

RUBY MAY.—A variety that will be sought after mostly for its colour. Producing spikes of exceptional length and vigour, well-faced with flowers, the outer part of which are deep Carmine. A large Cochineal blotch bordered with White makes this an outstanding combination 2/6 each.

NEWINGTON.—Cream, lightly flaked on outer edges with Rose Pink. Lower petals suffused Lemon Yellow, feathered with a darker Rose Pink. Tall strong spikes showing up to ten open blooms. Award of Merit Ballarat 5/- each.

BILL SOWDEN.—Raised in South Australia, this variety predominates in colour over any we have seen. Having blooms of immense size and wonderful substance. Vivid Crimson-scarlet in colour. The brilliancy of colour, the large flowers, and fine exhibition form will create a demand for this Gladioli when better known. F.C.C. Ballarat. 15/-

DARWIN TULIPS

—NAMED VARIETIES—

We have a very fine assortment of named Varieties, tall growers, with good colours. All Bulbs are grown at our "Le Roy" Gardens.

Prices—7/6 per dozen, 56/- per 100

MIXED DARWIN TULIPS

These consist of 2nd size Flowering Bulbs taken from our regular stock of named Varieties.

Prices—6/- per dozen, 42/- per 100
